PROFILE ME

I am a tech enthusiast with a business background, working mostly as a Ruby On Rails Developer. I've been working the past years in many projects, in a full time position and also freelancing. I am currently working as a Ruby On Rails Fullstack Developer at mibucle.com

EXPERIENCE

RUBY ON RAILS FULLSTACK DEVELOPER / MIBUCLE

2022 / Present

Developed many features, including the next:

- Migrated from Ruby 2.5.8 and Rails 5.1.6.2 to 3.1.2 and 6.1.0.
- Integrated a full API of a partner to our site, including many front end adjustments to fit the company branding.
- Worked and implemented the new branding design, on many landing pages of the app.

RUBY ON RAILS FULLSTACK DEVELOPER / LIGA PARACAO

2023

About to finish an app for a local football league in my town with more than 5000 players. The app includes a management system for all tournaments, teams and players.

RUBY ON RAILS FULLSTACK DEVELOPER / REMOTE CLUB

2021-2022

Worked on many features for Remote Club clients. The most challenging one was a trello like board to manage the entire pipeline of a real estate company.

RUBY ON RAILS BACKEND DEVELOPER / ALCHEMY

2021

Worked on a Ruby On Rails API ready to be consumed by any front end app for an argentinian NGO.

SKILLS

- | | | |
|-----------------------|------------------------|--------------|
| • Ruby | • Ruby On Rails | • HTML |
| • CSS | • Bootstrap / Tailwind | • JavaScript |
